File Heading

Roads & drains in the Malleswaram Extension, Bangalore City

From

The President, Bangalore City Municipal Council.

No 621 Dated 26. 9. 08 Received 6/8. 10 1908

Diary No. 2370	Enclos /	Spare Copies —	Serial No /

Brief Abstract of Letter.

Urges the necessity for opening out roads and constructing drains in the newly marked portions of the Malleswaram Extension and requests that a special grant may be sanctioned to start the work at once, the Chief Engr having stated that there is no provision therefor in the current year's P.W. Budget

NOTES AND ORDERS

The letter is addressed to the Secy. P.W.D. (evidently by an oversight) has been transferred to the Secretariat for disposal. The work referred to is very probably quite necessary, but there is no provision for it

OFFICE OF THE MUNICIPAL COUNCIL,

City, Bangalore, 26th September 1908

No 621

Enclosure one

From

THE PRESIDENT,

Municipal Council,

Bangalore City

To

The Secretary to the Government of H H the Maharaja of Mysore,

Public Works ~~Secretariat Records~~ *Department,*

Bangalore

Sir,

I have the honour to forward herewith copies of my letter No 533 dated the 10th Instant to the Chief Engineer, explaining the urgent necessity for opening out roads and construction of drains in the newly marked portions of the Malleswaram Extension and his reply No 6265 dated the 21st Idem thereto

2 The Chief Engineer has again been written to in my letter No 616 of the 24th of this month that as a sort of encouragement to the purchasers of sites in the Extensions who are anxious to build houses it is but fair that all reasonable facilities should be given to them

3 I therefore request you to be so good as to move the Government for a special grant being sanctioned for the current year to start the work AT ONCE

I have the honour to be
Sir,
Your most obedient servant,

G P B 1000-11-08

President.

SECRETARY'S OFFICE

Letter No 533 dated 10-9-08 from the President, City Municipal Council, Bangalore, to the Chief Engineer of Mysore

---

Sir,

I have the honour to state that in consequence of a large demand for Bungalow Sites in the Malleswaram Extension, all the available land towards the west as far as the Railway Line has been marked into sites and is being disposed of by public auction The purchasers are anxious to start building operations at once and request early attention (1) The opening of roads reasonable help at the hands of Govt Two items require to facilitate the transport of building materials (2) The construction of drains to enable the builders to locate their outhouses&c.

I request the favour of your issuing necessary instructions to the Sanitary Engineer to carry out the above works as early as possible.

I have Etc ,

Sd B J Kumarswami Naik,

President

Letter No 6265 dated 21-9-08 from the Chief Engineer of Mysore to the President, City Municipal Council, Bangalore

Sir,

With reference to your letter No 533 dated the 10th Instan requesting to issue necessary instructions to the Sanitary Engineer to open out certain roads and drains towards the west side of the Malleswaram Extension as there is a large demand for bungalow sites, I have the honour to irform you that there being no provision for the works in question in the sanctioned revised estimate for the laying out of the Malleswaram Extension, the Chief Engineer regrets his inability to have them carried out this year It appears however that if this is treated as an urgent work, next year it will be completed in time to meet requirements

I have Etc ,

Sd. M Singarvelu,

For Dy Chief Engineer

Dear Sir,

In forwarding herewith for ready reference an extract from the Chief Engineer's letter No.6619 dated the 20th instant, regarding the opening out of roads and constructing -- drains in the Western parts of the Malleswaram Extension, I beg to state that the purchasers of the sites are very anxious to start building operations, but owing to the absence of roads to facilitate the collection of materials etc., they are put to much trouble and urge for very early action.

I, therefore, request you will be good enough to obtain the sanction of Government early and place the required funds at the disposal of the Chief Engineer as early as practicable for carrying out the works above referred to.

Yours sincerely,

K. S. Chendrasekhara Aiyar Esquire B.A.,B.L.,
Secy.to Govt., General and Revenue Departments,
B a n g a l o r e.

Proceedings of the Government of His Highness
the Maharaja of Mysore.

Read:-

The following note by the Public Works Secretary, dated the 17th February 1909, forwarding for sanction, a project amounting to Rs. 70,000 for opening out the new Northern Extension at Malleswaram in Bangalore City.

I herewith forward the project called for by Government in their Un-offl: No. 51 dated 19-10-1908 for Rs.70,000 for opening out the new Northern Extension at Malleswaram [illegible] submitted by the Sanitary Engineer.

(1) The first point for consideration is; whether Government will consent to the opening out of this extension on the catchment area of Sankey's tank or not? And the orders of Government on this point have been asked for in another reference made to Government in this office No.1029 of the 8th instant.

The actual area proposed tobe utilised for building upon is 150 acres; but I calculate that unless a channel be excavated from D along the line E F to the existing bridge on the Tumkur road at F, some 300 acres of the catchment area of Sankey's tank will be cut off; and this would represent that some 25 to 30 units of supply would be lost to the tank if the existing channels were in order; but according to Mr. Shore, the channels are breached in many places, and at present, and for evidently some years past, the tank has received no supply from the channels now proposed to be blocked up.

I am of opinion that to maintain the channels, which pass through the area proposed to b built upon would involve a very large outlay; as bridges would have to be constructed on all the roads and conservancy lanes crossed by the channels and, moreover, bridges would ma also have to be constructed

by

by the owners of many house sites; and access would have to be allowed for us to clear and maintain the channels in private compounds; in fact this proposal would involve such complications, and so seriously affect the health of the people, that it must be abandoned.

(2) In regard to the other proposals for opening out this extension, there is little to say, as the work is a simple one.

Para VII of the Report.- The proposal to extend the 2nd main road (Sampagey Avenue road) of the existing extension may be approved; but I think a better job could be made in connection with the junction of this extension with the Tumkur road. I would prefer to extend the 18th Cross road right up to the Tumkur road for its full width, as shown by me in blue pencil; and the alignment of the proposed diversion of the Tumkur road would be improved if it was made straighter as shown in blue pencil.

The other roads proposed seem suitable; but probably it would be as well to allow add a Branch road from the 10th Main road to the Tata Institute, when that building is com-pleted. I would certainly oppose any further encroachment than that now proposed on the area reserved for our water works.

Para VIII.- I think that the gradients of some of the roads will require considerable modifications; and I have marked some of these in pencil, for future investigation on the sections. Such modifications will require careful scrutiny on the ground; but I have not thought it desirable to delay the the submission of the project to Government on this account: as any such alterations will not materially affect the total cost; and, in my opinion, sufficient provision does not seem to have been made for bridges and culverts, and the saving in earthwork will be counterbalanced by increased expenditure

on

G 6330

on bridges and culverts.

I certainly think the project for the drainage of the existing Malleswaram Extension, which has already been sanc-tioned by Government, should be completed as soon as possi-ble. And I have asked the Sanitary Engineer to submit the project for the drainage of this new Northern Extension as early as possible.

The large sum (of Rs. 8,440) provided in the estimate for filling up the numerous pits and ravines is no doubt a costly item, but I am of opinion that the filling in of all pits and hollows as is most necessary.

The Central Sanitary Board.- I have not sent this project to the Board for their opinion, as it cannot be considered to be in a proper sense a sanitary project: but if the Government think otherwise the Board may be consulted.

As soon as the order of Government are received sanction-ing this project, I will order the Executive Engineer, Water Supply and Stores Division to submit an estimate for the water supply to it.

M 170-08
SL-S-

No. 286-92 / T8606 Dated Bangalore 10th March 1909.

ORDER THEREON.- The project for opening out the new Northern Extension at Malleswaram is sanctioned for Rs. 70,000 subject to the remarks and suggestions made in the Note read above, with which Government are in complete agreement.

2. The work may be started, in view to affording employment for the large number of people who have immigrated into Bangalore with their carts and bullocks in search of work and the outlay during the year should be restricted to Rs. 8,000 which will be made available out of the P. W. Budget grant for the current year by reappropriation.

3. The Executive Engineer, Water Supply and Stores

Stores Division, will prepare and submit an estimate for water supply to the new Extension at an early date and the Sanitary Engineer will expedite the submission of the project for its drainage.

Secretary to the Government of Mysore, P.W.D.
